

SustainabilityCheck

The complete sustainability assessment & verification scheme

SustainabilityCheck is the premier mark of sustainability achievement. It is ideal for organisations seeking to enhance their reputation and demonstrate the highest standard of sustainability accomplishment.

Why SustainabilityCheck?

Sustainability is becoming an increasingly important part of the business landscape, with growing demands from both suppliers and consumers.

SustainabilityCheck is the premier third party verification scheme for sustainability. Having the award will allow you to demonstrate your credentials to both suppliers and consumers in a simple and cost-effective way.

SustainabilityCheck has a phased structure which allows you to quickly gain recognition for your progress at the early stages while working towards the requirements of the later phases.

Benefits:

Achieving the different levels of the **SustainabilityCheck** scheme will provide numerous benefits including;

- quickly & easily demonstrating sustainability credentials for suppliers and tender submissions;
- reducing costs and increasing resource use efficiency;
- enhancing your organisation's reputation and standing out from competitors;
- having a free company listing on our **SustainabilityCheck** register.
- promoting staff satisfaction and retention;
- ensuring the long-term success of your organisation.

Who are we?

The team of sustainability professionals at Loreus have over 20 years' practical experience working with organisations to improve their sustainability performance, reduce costs and increase efficiency.

During that time, our team have established the highly successful EcoCampus EMS scheme and helped over 800 organisations become more sustainable.

Competitively priced

£300 for the Bronze level award
£400 for the Silver level award
£500 for the Gold level award

Please see overleaf for more information on the **SustainabilityCheck** Scheme.

Who is this for?

SustainabilityCheck is suitable for a wide range of organisations and is ideal if you want to:

- evidence your organisation's commitment to sustainable development;
- stand out from your competitors;
- reduce waste and consume resources in a more efficient manner;
- reduce costs through environmental initiatives;
- improve your organisation's sustainability performance;
- calculate, monitor and report your organisation's carbon footprint and other sustainability metrics;
- have fast access to support from sustainability professionals;
- promote your sustainability achievements to suppliers, customers and the wider community;
- receive an award acknowledging your organisation's sustainability performance;
- join a network of like-minded professionals seeking to improve their sustainability;
- enhance the reputation of your brand and gain a competitive advantage;
- improve employee engagement retention and recruitment;
- reduce the potential risk of future environmental legislation.

How do I join?

Please contact our team to discuss your requirements and to register on the Scheme.

What is **SustainabilityCheck**?

The complete sustainability assessment and verification scheme

The **SustainabilityCheck** Scheme has three levels; Bronze, Silver and Gold, with increasing requirements at each level.

The Scheme criteria are designed to cover the economic, social and environmental dimensions of sustainability, unlike many other schemes which only cover environmental criteria.

Below, you will find a summary of the main criteria within each level of the Scheme. A more detailed description of the criteria can be found on our website at www.loreus.com

Bronze level

Appoint a sustainability champion, create a sustainability policy, record specific sustainability metrics and set an annual target for each metric.

Silver level

Actively communicate the sustainability policy, monitor two additional, sustainability metrics, implement a recycling scheme and include a waste reduction target.

Gold level

Undertake a sustainability questionnaire with a selection of suppliers, include a sustainability disclosure in your annual report, calculate a carbon footprint for energy consumption and regularly monitor progress towards your targets.

Free registration

Registration to the **SustainabilityCheck** Scheme is free. Organisations only pay when submitting evidence for audit at each level.

Access to examples, audit criteria and supporting documentation

Upon registration, organisations will receive access to the full audit criteria along with examples of how the criteria can be achieved and evidenced.

Fast access to help and support

Expert help and support from our team of sustainability professionals is always available through our helpline and via e-mail.

Promotion

We will maintain a register to promote your achievements through case studies, our website, newsletters and social media.

Recognition

We will provide your organisation with a badge and certificate demonstrating that it has achieved each level of the Scheme as you make progress.

Set the scope

Organisations will have complete control over the scope they wish to be covered by the **SustainabilityCheck** assessment and award.
